INSTRUCTIONS FOR AUTHORS

Manuscripts may be submitted electronically, either on a MS-DOS disk or by
e-mail (to make sure your message arrives safely, leave no lines longer than 80
characters). Papers should be in \LaTeXe format, using the standard article
document class, i.e.,

\documentclass{article}
\usepackage{} % Please include any local package you are using
\author{} % Here insert the authors name and the address
\title{} % Here insert the title
\date{} % this must be left empty
\begin{document}
\maketitle
\begin{abstract}
................
................
\end{abstract}
................
................ % Here comes the body of the text
................
\begin{thebibliography}{11}
\bibitem{}% Here comes the bibliography
\bibitem{}
\bibitem{}
\end{thebibliography}
\end{document}

The manuscript should also contain one or more key words which describe the
important concepts of your paper, as well as Mathematical Reviews classification
numbers of your work.

Graphics files can be included in either \LaTeX character graphics format or in
PostScript format. To include PostScript files in your document, we prefer the
macro commands in the epsfig.sty.
