Aims and Scope
Founded in 1999, the NEXUS NETWORK JOURNAL (NNJ) is a peer-reviewed journal for researchers, professionals and students engaged in the study of the application of mathematical principles to architectural design. Its goal is to present the broadest possible consideration of all aspects of the relationships between architecture and mathematics, including landscape architecture and urban design.

Abstracted/Indexed in:
Avery Index of Architectural Publications, Mathematical Review, MathSciNet, SCOPUS, Zentralblatt MATH, ZDM (Zentralblatt für Didaktik der Mathematik)
