

*THEORY AND APPLICATIONS OF CATEGORIES*

Volume 1, 1995

Oriented singular homology Michael Barr	1
Functorial and algebraic properties of Brown's \mathcal{P} functor Luis-Javier Hernández-Paricio	10
On finite induced crossed modules, and the homotopy 2-type of mapping cones Ronald Brown and Christopher D. Wensley	54
Kan extensions along promonoidal functors Brian Day and Ross Street	72
Symmetric monoidal categories model all connective spectra R. W. Thomason	78
Distributive adjoint strings Robert Rosebrugh and R. J. Wood	119

A forbidden-suborder characterization of binarily-composable
diagrams in double categories

Robert Dawson

146

Categorical data-specifications

Frank Piessens and Eic Steegmans

156

On the size of categories

Peter Freyd and Ross Street

174

THEORY AND APPLICATIONS OF CATEGORIES (ISSN 1201-561X) will disseminate articles that significantly advance the study of categorical algebra or methods, or that make significant new contributions to mathematical science using categorical methods. The scope of the journal includes: all areas of pure category theory, including higher dimensional categories; applications of category theory to algebra, geometry and topology and other areas of mathematics; applications of category theory to computer science, physics and other mathematical sciences; contributions to scientific knowledge that make use of categorical methods.

Articles appearing in the journal have been carefully and critically refereed under the responsibility of members of the Editorial Board. Only papers judged to be both significant and excellent are accepted for publication.

The method of distribution of the journal is via the Internet tools `WWW/gopher/ftp`. The journal is archived electronically and in printed paper format.

Subscription information. Individual subscribers receive (by e-mail) abstracts of articles as they are published. Full text of published articles is available in .dvi and Postscript format. Details will be e-mailed to new subscribers and are available by `WWW/gopher/ftp`. To subscribe, send e-mail to `tac@mta.ca` including a full name and postal address. For institutional subscription, send enquiries to the Managing Editor, Robert Rosebrugh, `rrosebrugh@mta.ca`.

Information for authors. The typesetting language of the journal is \TeX , and \LaTeX is the preferred flavour. \TeX source of articles for publication should be submitted by e-mail directly to an appropriate Editor. They are listed below. Please obtain detailed information on submission format and style files from the journal's WWW server at URL `http://www.tac.mta.ca/tac/` or by anonymous ftp from `ftp.tac.mta.ca` in the directory `pub/tac/info`. You may also write to `tac@mta.ca` to receive details by e-mail.
